ABOUT ME

Frontend Developer with 2+ years of experience building fast, scalable, and user-friendly web applications. Specialized in React.js, Next.js, WordPress, and Shopify with strong expertise in developing high-converting e-commerce websites.

I focus on creating responsive UI, optimizing performance, and improving SEO to drive business results. Experienced in building product pages, shopping carts, checkout systems, and custom website solutions. skilled in debugging, deployment, and delivering production-ready applications in Agile environments.

CORE COMPETENCIES

- Frontend Development – Building responsive and high-performance UI using React.js and Next.js
- WordPress Development – Custom themes, plugins, and business websites
- Responsive Web Design – Ensuring seamless experience across mobile, tablet, and desktop devices
- API Integration – Consuming REST APIs and handling dynamic data rendering in frontend applications
- State Management – Handling application state using React Hooks and modern state management techniques
- Component-Based Architecture – Developing reusable and scalable components for efficient development
- Version Control – Using Git and GitHub for source code management and collaboration
- Debugging & Testing – Identifying UI issues, fixing bugs, and ensuring smooth user experience
- UI Libraries & Styling – Working with Bootstrap, Tailwind CSS, and custom CSS for modern UI design
